

Gulfnet Communications Participates at the International Telecoms Week (ITW) 2014 in Chicago

Kuwait MAY 2014: Gulfnet Communications (Gulfnet), the first internet service provider in the Gulf region and a provider of technology-drive integrated solutions, participated at the International Telecoms Week (ITW) that was held in from the 11th to the 15th of May, 2014 at Hyatt Regency Hotel, Chicago IL, in the United States of America.

International Telecoms Week (ITW) is considered one of the most important and key meeting point for the global wholesale telecommunications community, at which attendees from across the globe meet to exchange voice and data products and services. ITW is an event for the entire industry with participants from all areas of the wholesale telecoms services.

Participating in the ITW is a strategic activity for Gulfnet, being the pioneer in providing internet services in Kuwait and a leader in the technology field in the region. Gulfnet always strives in providing the latest cutting-edge technology in communications and internet services in the region.

A team from Gulfnet will be present at ITW at their exhibit booth with the objective of meeting with strategic partners and reconnect with the current ones. This will contribute in building key alliances with new partners and establish and develop strategic connections with experts within the industry on a worldwide level, which fulfills one of the main objectives of the growth plans of Gulfnet.

Regarding Gulfnet's participation at ITW, Dr. Ahmad Salih, Chairman of the Executive Board, commented: "ITW is an essential meeting point for the global and international telecommunications industry. The nature of the event and the type of participants open the doors to global partnerships, which provides the opportunity to sharing technology and expertise. Further, the event ensures our presence on an international level, which allows us to expand our business, keep up with the rapidly growing and changing industry and market, and being exposed to the latest technologies and services."

ITW is the annual meeting point for the wholesale telecommunications community and offers various networking opportunities, with the participation of over 1,000 companies from more than 150 countries from all over the world by various vendors and companies within the field of telecommunications.

Dr. Salih concluded by highlighting that this participation is of high importance to Gulfnet in order to be up to date with the latest technologies to be able to offer what is best to the customers and to tailor these services according to their needs and requirements.
